

We are pleased to announce that we will hold the **First Annual 18 for 18 Kentucky Golf Tournament** to benefit the Brain Aneurysm Foundation (BAF) at Gibson Bay Golf Course in Richmond, Kentucky, on Friday, September 5, 2025.

The Brain Aneurysm Foundation is the globally recognized leader in brain aneurysm awareness, education, support, and advocacy, as well as the largest private funder of brain aneurysm research in the world. Let us save lives by helping BAF raise awareness and research the hereditary nature of aneurysms.

This is personal to me. As some of you may know, I suffered a brain aneurysm rupture on November 27, 2023. I am incredibly blessed that I am alive, and I can tell my story in the hopes of saving another. My father was not so lucky and is part of the 50% of people who suffer a fatal rupture. If people were made aware of the signs, symptoms, and the hereditary link between brain aneurysms, lives could be saved.

Brain aneurysms are called silent killers as they sometimes present with no symptoms or are ignored or misdiagnosed. It is estimated that 1 in 50 people in the world have an unruptured brain aneurysm, and a rupture occurs every 18 minutes. When I hear these numbers, I realize how lucky I truly am.

We would love you to join us in a round of golf, become a sponsor, or donate items for our raffle and auction to help us raise awareness and fund research. By spreading awareness, we hope to save loved ones from losing a grandparent, parent, spouse, friend, and even their child to something that could be prevented if they had known the facts.

Please see the attached information on how you can help or visit give.bafound.org/KentuckyGolf to learn more and register. Thank you for your consideration and contribution to this special event!

Brain Aneurysm Foundation: 18 for 18 Kentucky Golf Tournament

SEPTEMBER 5, 2025 | GIBSON BAY GOLF COURSE, RICHMOND, KY

The Brain Aneurysm Foundation has been the leading voice in the fight against brain aneurysms for 30 years. The BAF aspires towards a life without death or disabilities caused by brain aneurysm ruptures through increased awareness, education, support, advocacy, and research funding. With your support we can continue to improve outcomes and save lives!

OUR IMPACT

AWARENESS

Through public awareness campaigns, events, and educational initiatives, we strive to increase understanding of brain aneurysms, the risk factors, signs and symptoms.

EDUCATION

7,500 primary care professionals from around the nation are educated each year by the Brain Aneurysm Foundation via PriMed. The program consistently receives positive feedback and has proven to be life-saving.

SUPPORT

We offer resources, guidance, and emotional support to individuals and families affected by brain aneurysms, including educational materials, and support groups for survivors, caregivers, and those who have experienced loss.

ADVOCACY

We advocate for greater brain aneurysm specific research funding through NIH. Brain aneurysms are among the most underfunded disease research projects in the U.S.

RESEARCH

Since the inception of our grant program in 2007, we've funded nearly \$6 million in research projects that advance the understanding of brain aneurysms, improve early diagnosis, and explore treatment options.

SPONSORSHIP LEVELS
